

Rules, Regulations & Academic Framework — IUC

1. ACADEMIC STRUCTURE

IUC follows the LMD (Licence–Master–Doctorat) system aligned with European and CAMES standards for Francophone programs, and the HND–Bachelor–Master framework for Anglophone programs. All programs are organized around semesters.

Framework	Track	Levels
LMD System	Francophone	BTS → Licence → Master
HND System	Anglophone	HND → Bachelor → Master / MSc
Engineering	Both	Prépa → Cycle Ingénieur / M.Eng
Executive	Professional	ECGM, EMBA, MBA

2. SCHOOLS AND THEIR ACADEMIC MISSIONS

SEAS — School of Engineering and Applied Sciences

English-medium engineering school offering BEng, BTech, HND, Bachelor, and MSc programs in applied science disciplines. Focuses on practical, internationally aligned engineering education.

- Programs: HND Engineering, BEng / Bachelor of Engineering, BTech, MSc / M.Eng

ICIA — Institut de Commerce et d'Ingénierie d'Affaires

Business and management school offering programs in commerce, administration, law, and international business. Offers both Francophone and Anglophone streams.

- Programs: BTS Commerce / Gestion, BBA / Bachelor of Commerce, Bachelor of Law, MBA / EMBA / ECGM, BCIA (Commerce International Asie)

3IAC — Institut d'Ingénierie Informatique d'Afrique Centrale

Leading ICT and computer engineering school. Offers programs from BTS to Master level in software engineering, networks, automation, and IT management.

- Programs: BTS Informatique, LCSi (Bachelor Informatique), MCSi (Master Informatique), MPL (Master Professionnel Limoges), Cycle Ingénieur Informatique

ISTDI — Institut Supérieur de Technologie et de Design Industriel

Technology and industrial design institute, combining technical engineering with design and innovation. Offers BTech and Licence Technologique programs.

- Programs: BTS Industriel, BTech / Licence Technologique (LT), Diplôme Supérieur d'Études Professionnelles

ISSA — Institut des Sciences de la Santé

Health sciences school dedicated to nursing, paramedical, and biomedical education with modern lab facilities.

- Programs: HND Nursing / Health Sciences, BSc / BHSc (Health Sciences), Licence en Sciences de la Santé

IISTI — Institut International des Sciences et Technologies de l'Innovation

Innovation-focused institute offering Classe Prépa (CPGE) and international programs in science and technology. Gateway to top engineering schools.

- Programs: Classe Prépa (CPGE), PREPA 3IL, PISTI International Programs, DEC (Diplôme d'Étude Collégiale)

ESTA — École des Sciences et Techniques Agro-Industrielles

Agriculture and agro-industrial school training professionals in crop science, food processing, livestock, and sustainable agriculture.

- Programs: BTS Agriculture, BSc / BAgr (Agriculture), Licence Agro-Industrielle

3. CREDIT SYSTEM

IUC uses a credit-based system where each course has a defined credit value proportional to its workload (lecture hours + practical sessions + personal study). Credits accumulate toward degree completion.

Level	Total Credits Required	System
BTS / HND	120 credits (2 years)	Semester-based
Licence / Bachelor	180 credits (3 years)	LMD / Semester-based
Master / MSc / MBA	120 credits (2 years)	Semester-based
Cycle Ingénieur	300 credits (5 years total)	Continuous + Semester

4. EXAMINATION REGULATIONS

4.1 General Rules

- Students must present their student ID card at every examination
- Arriving more than 30 minutes late disqualifies a student from the examination
- Mobile phones and unauthorized materials must be switched off and stored away
- Students caught cheating receive zero (0) and face disciplinary action
- Results are published on the student portal within 4 weeks of the last exam

4.2 Resit / Rattrapage Policy

Students failing a module are eligible for one (1) resit session per academic year. The resit is held after the main examination session (typically July–August). A student who fails the resit must repeat the module the following academic year.

4.3 Grade Appeals

Students may formally appeal a grade within **5 working days** of result publication. Appeals must be submitted in writing to the school's academic director. The academic council reviews the appeal and communicates a decision within 10 working days.

5. PROGRAM DURATION LIMITS

Program	Normal Duration	Maximum Duration
BTS / HND	2 years	3 years
Licence / Bachelor	3 years	5 years
Master / MSc	2 years	4 years
Cycle Ingénieur	3–5 years	7 years

Note: Students exceeding maximum duration must apply for special dispensation from the academic council.

6. ACADEMIC PROGRESSION REQUIREMENTS

To progress from one academic year to the next, students must achieve the minimum passing grade (10/20 for Francophone, or 50% for Anglophone programs) in all core modules, or pass the resit session. Compensation rules between modules depend on school-level regulations.

7. FINAL YEAR PROJECT (MÉMOIRE / DISSERTATION)

All degree-level programs include a final year project (mémoire, dissertation, or thesis). Students are assigned a supervisor from the faculty and must submit a written report and defend their work before an examination panel.

Stage	Timeline	Description
Topic Proposal	Semester 5 / early S1 of final year	Student proposes topic; supervisor approves
Research Phase	Semester 5–6	Data collection, literature review
Written Report	End of Semester 6	Submission of final mémoire
Defense	Post-submission (1–2 weeks)	Oral defense before jury panel

8. CERTIFICATION PROGRAMS

In addition to degree programs, IUC offers industry-recognized certification courses through strategic technology partnerships:

Partner	Certifications Available	Target Students
Huawei	HCIA, HCIP, HCIE (Network/Cloud/AI)	IT, Engineering students
Cisco	CCNA, CCNP (Networking)	IT, Telecom students
Amazon Web Services	AWS Cloud Practitioner, Solutions Architect	IT, Business students
Microsoft	Azure Fundamentals, Office 365	IT, Business, all students
