

Professional Placement, Career Services & Industry Partnerships

1. INTERNSHIPS AT IUC — OVERVIEW

Internships (stages professionnels) are a core component of the IUC academic experience. They bridge the gap between theoretical learning and real-world professional practice, building students' competence, confidence, and employability.

IUC's partnerships with companies across multiple sectors ensure that students have access to high-quality internship opportunities aligned with their field of study.

2. TYPES OF INTERNSHIPS

Type	Duration	When	Purpose
Observation Internship (Stage d'Observation)	2–4 weeks	Year 1	Understand the professional environment
Integration Internship (Stage d'Intégration)	4–8 weeks	Year 2	Apply first-year knowledge in practice
Professional Internship (Stage de Fin d'Études)	3–6 months	Final year	Capstone professional experience for FYP/mémoire
Alternance (Work-Study)	Ongoing	Selected programs	Work in company while studying

3. INTERNSHIP REQUIREMENTS BY PROGRAM

Program Level	Minimum Internship Duration	Report Required
BTS / HND	4–8 weeks (per year)	Yes — stage report
Licence / Bachelor	8–12 weeks (final year)	Yes — mémoire
Master / MSc / MBA	3–6 months	Yes — professional thesis
Cycle Ingénieur	6 months (final year)	Yes — engineering thesis
EMBA	Integrated project work	Yes — managerial thesis

4. HOW TO FIND AN INTERNSHIP

4.1 Via IUC Career Services

IUC's professional insertion office maintains a network of partner companies. Students can access internship offers through:

- Career office on campus (visit during opening hours)
- Internship listings posted on campus notice boards and student portal
- Career fairs and company presentations organized by IUC
- Direct referrals from professors with industry connections

4.2 Self-Sourced Internships

Students may also source their own internship placements. Self-sourced internships must be approved by the program coordinator before starting. A valid convention de stage (internship agreement) signed by IUC and the host company is required.

5. INTERNSHIP PROCEDURE

Step 1 — Eligibility Check

Confirm with your program coordinator the internship requirements for your level and program.

Step 2 — Find a Host Company

Search via IUC career services or self-source. Obtain written agreement from the company.

Step 3 — Sign the Convention de Stage

The convention must be signed by the student, the host company supervisor, and IUC administration before the internship starts.

Step 4 — Undertake the Internship

Follow the company's schedule. Maintain a logbook (carnet de stage) documenting daily/weekly activities.

Step 5 — Write the Internship Report

At the end of the internship, write a structured report following the school's guidelines.

Step 6 — Internship Defense (if required)

Some programs require a presentation and defense of the internship report before a jury.

Step 7 — Internship Certificate

Obtain a signed certificate (attestation de stage) from the host company for your records.

6. CONVENTION DE STAGE — KEY ELEMENTS

The convention de stage is a tripartite agreement between the student, IUC, and the host company. It must include:

- Full identity of student, company, and IUC supervisor
- Start and end dates of the internship
- Objectives and tasks to be performed
- Supervisor details at the host company
- IUC academic supervisor / tutor details
- Compensation or allowance details (if applicable)
- Confidentiality clause (if required by company)

Note: The convention de stage must be submitted to the career services / internship coordinator BEFORE the internship begins.

7. INTERNSHIP REPORT STRUCTURE

Section	Content
Cover Page	Title, student name, company name, academic year, supervisor names
Acknowledgements	Thanks to company supervisors and IUC faculty
Table of Contents	All sections with page numbers
Introduction	Context, internship objectives, report structure
Chapter 1 — Company Presentation	Company history, mission, structure, sector
Chapter 2 — Internship Activities	Tasks performed, tools used, challenges faced
Chapter 3 — Analysis & Reflection	What was learned, professional skills developed
Conclusion	Summary and future career perspective
References	Sources consulted
Appendices	Supporting documents, data, photos, certificate

8. IUC INDUSTRY CERTIFICATION PARTNERSHIPS

In addition to internships, IUC equips students with market-recognized certifications:

Partner	Certifications	Career Paths
Huawei	HCIA, HCIP, HCIE	Network engineer, Cloud architect, AI engineer
Cisco	CCNA, CCNP	Network administrator, Security engineer, IT infrastructure
Amazon Web Services	Cloud Practitioner, SA Associate	Cloud engineer, DevOps, Data analyst
Microsoft	Azure Fundamentals, Office 365	IT admin, Business analyst, Cloud specialist
